1. About the host city

Chile

Chile is located in the southwestern end of South America, between the Andes mountains and the Pacific Ocean. Its area extends to 4,200 kilometers, which makes it possible to find various landscapes and climates along its territory. In the northern extreme we find the Atacama Desert, the world's driest desert, and in the Patagonia, millenary glaciers.

Santiago, host city of the XXXII Pan American Karate Championships

Santiago is the most populated town in the country and the capital of Chile, totaling 6,685,685 inhabitants in its metropolitan area. It has the executive and judicial power, being also an economic and cultural pole at world-wide level.

Culture

Some of the city's newest attractions are: the viewpoint Sky Costanera, the tallest tower in Latin America with its 300 meters of height; the Gabriela Mistral Cultural Centre (GAM), a monumental building dedicated to the arts and culture; the Palacio de La Moneda Cultural Centre, an underground museum with exhibitions from around the world, and the Mirador Interactive Museum (MIM), filled with artefacts that allow you to experience science.

The city also has traditional areas that showcase the old town, such as the Central Market (Mercado Central), the Fine Arts Palace (Palacio de Bellas Artes), La Moneda Palace (Palacio de La Moneda, which houses the executive power), San Cristobal Hill and the Main Square (Plaza de Armas), all of which are located in the city's historic centre. The restaurants, bars, parks, concerts, parties, bookstores, museums, pubs and rst-level architectural projects give life to a modern and cosmopolitan city. In 2011, The New York Times named Santiago de Chile a must-visit location.

Geography and Climate

The city is located in a geographically distinctive location, surrounded by mountain ranges. The country itself is a long and narrow strip of land: just 116 km separate Santiago from the coastal city of Valparaíso. The nearest ski centers are located 50 km from Santiago, approximately an hour-long trip.

The climate has mediterranean patterns, with 80% of the rainfall during the winter. In June,

average temperature is 9°C (47°F), with typical daily maximum of 15°C (59°F) and low near 3°C (37°F). Also, June is the wettest month of the year, with an average of 8 days of rainfall and 80mm.

Currency and Exchange

The official currency of the country is the Chilean peso, and it is represented by the \$ sign. The exchange rate varies continuously. As of February 2018, one US dollar amounts to \$605 Chilean pesos.

Exchanges can be made at the airport, in exchange bureaus or in banks. In Chile, credit cards are accepted in commercial establishments such as shops, hotels, restaurants and travel agencies. Nevertheless, it is recommended to have some cash in the national currency at hand for minor expenses.

Tipping in Chile is voluntary, and it's usually not included in your bill or receipt. In restaurants, it is customary to leave a 10% tip. However, cab drivers are not used to being tipped.

Business Hours

Office hours are Mondays to Fridays, from 9:00 to 18:00. Bank hours are 9:00 to 14:00. Commercial centres and malls are open Monday to Sunday, from 10:00 to 21:00. Supermarkets are open 8:00 to 22:00.

Electricity

In Chile, electrical currents have a voltage of 220V and 50 hertz. Devices designed for 110V will burn when plugged in, unless a voltage converter is used. It is recommended to take voltage converters and adapters on the trip. The electric plugs have round pins and are Italian Type C or L.

Local Law

La República de Chile is a unitary state, therefore all current laws are valid throughout the whole country. Any person within chilean soil must obey the national laws. Claims of unawareness or ignorance will not represent any exemption.

Vehicule Driving

A valid driver's license (Class B or equivalent) is needed for driving light motorized vehicles. This type of license authorizes driving vehicles of three or more wheels and up to nine seats, plus the driver's seat.

Foreigners entering the country with a tourist visa can drive vehicles while their visa is valid, provided that they carry a legally standing driver's license from their country of origin, and that the driver's license is equivalent to a Chilean Class B non-professional driver's license. Foreigners entering the country with a tourist visa can drive vehicles while their visa is valid, provided that they carry a legally standing driver's license from their country of origin, and that the driver's license is equivalent to a Chilean Class B non-professional driver's license.

Alcohol

The legal drinking age is 18 years old. Alcohol consumption is only allowed in private, indoor areas. Alcohol selling is not allowed in sporting facilities. Alcoholic tasting events can only be carried out in indoor spaces, where minors are banned from access.

Tobacco

Only people 18 and over are allowed to use tobacco or tobacco products. Tobacco use is only allowed in private areas and in public, open spaces.

In general, sporting facilities are smoke free zones, and smoking is only allowed in those facilities that have specific designated smoking areas.

Safety in the city

Chile is ranked as one of Latin America's safest countries.

The Ministry of Internal Affairs is in charge of public security in the country, which is enforced by Carabineros de Chile (Police) and Policía de Investigaciones (PDI, Investigative Police).

Currently, crime levels are decreasing and most criminal activity is concentrated in property crime, such as thefts and burglaries. A recommendation is to make a copy of your passport for everyday use, while keeping the original document in a safe location. Additionally, it's best

not to carry too much cash when going out.

The local police, Carabineros, one of the strictest police in the world, is constantly making rounds in the streets, and you can go to them in case of doubts or any incidents.

Guidelines in case of tremblor or earthquake

Chile is prone to earthquakes. In the Metropolitan Region, where Santiago is located, most constructions are modern and designed to withstand any seismic movement, which gives added security to dwellers and visitors.

While the earthquake IS still happening: if you are inside a house or building, you must remain indoors, unless the construction is visibly deteriorated. If you are outdoors when the movement begins, stay away from buildings, trees, streetlights and overhead cables. You should remain outdoors until the earthquake is over. If you are in a vehicle, it is suggested to switch off the engine and remain inside the vehicle. Once the tremor is over, act carefully. Avoid bridges or ramps that might have been damaged during the quake. Always follow emergency instructions of the place you are located.

AFTER the earthquake: avoid walking barefoot, since there might be glass and other sharp objects on the floor. You should be prepared for the aftershocks, which can happen several months after the main earthquake.

Customs Office performs random inspections on the luggage of the travelers at the airport.
